You can view the application details online and make comments on the proposals by scanning the QR code or at: www.sstaffs.gov.uk/PublicAccess .

Any comments you may have should reach us by 27 April 2023.

Alternatively, you can use the e-mail address or write to us using the details at the bottom of this notice.

Please note that any comments you make about an application will be placed on the planning file and, as such, will be available for anyone (including the applicant) to view. You must include your name, address and application reference number in your correspondence. If you provide an email address this will be our primary method of contact for you should this be necessary.

Please note that your comments will not be acknowledged, unless submitted through PublicAccess, but will be published on the website within 5 working days. The council will only use your data to inform the planning process (including appeals) for this individual application. Anonymous comments will not be taken into consideration within the planning process. Any representations received that the Council considers in any way defamatory or derisive will not be accepted.

Data protection: Please visit the data protection section of the planning pages on the Councils website before making your representations.

This notice is being displayed in accordance with article 15 of the Town & Country Planning (Development Management Procedure) (England) Order 2015
